

Sensory Wall Cascade

The new Sensory Wall Cascade from Universal Fibre Optics offers a unique sensory experience which will captivate the mind and provide a soothing effect for many children and adults.

Unlike similar products, the UFO Sensory Wall Cascade has an inbuilt remote control LED light source with full colour change. This avoids the need for bulky and hot external units. We have also incorporated a unique cantilever mounting bracket, allowing for secure fixing and much more freedom in the positioning of the Cascade. Our Cascade system can easily be installed on walls, or above doors, and swung out ready for use. No other system offers so much flexibility.

The PMMA fibre used in this product has CPSIA and EN71 toy certifications. This means you can be sure you are buying a safe, rigorously tested product.

Electrical Specifications	
Supply voltage	110VAC 60Hz / 230 VAC 50 Hz
Power supply	External 12V PSU
Power consumption	2-5W in colour cycle mode

Cascade Specifications	
Fibre type	PMMA
No. of fibre tails	90
Operating environment	Indoor / dry
Material	Aluminium
Colour	White
Size	52mm diameter tube at either 1000mm or 1200mm long

Driver Box Specifications	
Colour	White
Size	137mm (L) x 114mm (W) x 73mm (H)
Cable length	2 metre cable from drive box to cascade

Ordering Code	No. of Fibres	Tube Length	Fibre length	Light source
SWC10	90 tails of 2.2mm side sparkle fibre	1 metre (exc. light source)	2 metres	Integral LED with remote control
SWC12		1.2 metres (exc. light source)
